

ADULT DOG

LAMB

WITH SWEET POTATO & MINT

**OUR ENTIRE WORKING DOG FOOD RANGE
IS UK VAT FREE**

FRESHLY PREPARED LAMB

The finest Freshly Prepared lamb is cooked at a gentle 82 degrees to protect the valuable protein, increase the digestibility and enhance the flavours.

Lamb is a nutrient-dense, highly digestible protein source. It is also a good source of vitamin B12 and iron which are required to help keep nerve and blood cells healthy.

MINT

Mint is thought to help aid digestion and is a good source of iron and vitamins A & C.

RECIPE CLAIMS

50% TOTAL LAMB

Rich in amino acids, vitamins & minerals, lamb is a delicious source of protein.

MINIMUM 26% FRESHLY PREPARED LAMB

A responsibly sourced and highly digestible protein source.

SWEET POTATO

An excellent alternative to grains, sweet potato is a complex carbohydrate high in B Vitamins.

ADDED OMEGA 3 SUPPLEMENT

To help support healthy skin & coat.

DIGESTIVE HEALTH

Pre-biotics MOS & FOS which may help to promote the growth of healthy gut bacteria and aid digestion.

NO ADDED ARTIFICIAL COLOURS OR PRESERVATIVES

Naturally preserved using rosemary extract.

ADVISORY

Working Dog Products must follow GA's guidance for products labelled and marketed as working dog food to ensure legal compliance with Government VAT guidelines. Please see "Working Dog Food Guidance" document -if you do not have a copy please speak to your Partner Manager.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903. As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely. Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
